a.mullabaev@gmail.com ◇ amullabaev.dev ◇  [amullabaev](#) ◇  [amullabaev](#)

OBJECTIVE

Front-end engineer with 8+ years of experience building fast, maintainable web applications end to end. Looking for a product team where I can take ownership of architecture and ship things people use.

EDUCATION

Engineer Degree (eq. to MSc), Telecom and Network Systems, KRSU, Bishkek, Kyrgyzstan (2010 - 2015)

TECHNICAL SKILLS

Front end: React.JS, Vue.JS, TypeScript, JavaScript, Tailwind CSS, Jest, Playwright, HTML, CSS

Back end: Node.JS, Python FastAPI, Java Spring, RESTful API, Microservices architecture

Tools: ESLint, Prettier, Vite, Git, Jira, Figma

Processes: Agile methodology, SAFe, Scrum

Other experience: Microfrontends, CI/CD

EXPERIENCE

Senior software engineer

Nov 2019 - Present

EPAM

Krakow, Poland

- Worked with React.JS, Ember, TypeScript, SCSS
- Tested features using Jest, Jasmine, Playwright, QUnit, Sinon
- Built and optimized scalable web apps serving global tech giant clients, making loading time 4x faster through front-end refactoring and optimization
- Implemented search engines for scientific documents and dynamic forms to streamline user interactions.
- Created micro front-end applications from scratch and integrated critical functionality across multiple projects.
- Designed back-end components using AWS Lambdas and S3, ensuring data accuracy and performance.
- Improved application performance, created from scratch and led CI/CD processes, and maintained code quality through unit, acceptance, and integration testing, also relying on SonarQube reports.
- Led communications with cross-functional teams and stakeholders to ensure smooth project delivery.
- Managed releases, implemented front-end PDF generation, and supported app redesign efforts.

Software engineer

Zensoft KG

Jan 2018 - Oct 2019

Bishkek, Kyrgyzstan

- Worked with React.js, Ember.js, Angular, Spring Boot
- Full-range development and maintenance of a family of ERP systems for the oil and gas industry
- Mentoring junior developers
- Supporting backend development

Software engineer

NambaSoft

Apr 2017 - Dec 2017

Bishkek, Kyrgyzstan

- Worked with Angular, TypeScript, Node.js, Express, Sequelize
- Developed nationwide mobile payment system from scratch to a working prototype
- Created a review service from scratch
- Integrated micro-frontends into host app
- Connected the app to a popular payment service so people could use it to pay for their ads

Software engineer

Velox Software

Aug 2016 - Apr 2017

Bishkek, Kyrgyzstan

- Worked with Angular, Electron.js, TypeScript, SCSS
- Migrated language-learning platform software from AngularJS to Angular 2
- Created mini-games for kids to help them learn language
